## Photographs and Filming

At Blessed Dominic Catholic Primary School, we welcome parents and carers to join us in assemblies and performances, however we request that photos and video recordings are not taken this is to safeguard our children.

If you wish to take a photo of your own child at the end of the performance this will be permitted.

As you know, each year all parents and carers are asked to sign the permission request to advise us whether or not your child can be photographed. Please be aware that parents and carers are not permitted to take photographs or to make a video recording for anything other than their own child and for their own personal use.

We now have the exciting dimension of adding our images and videos to our online social network, such as Facebook, You Tube, Twitter and many other websites. This means that we can easily share our photos and videos with family and friends, whilst this can be very useful to all of us, we must ensure we protect and safeguard all children and staff, including those who do not want to have their images stored online.

Please note that by putting photos of children on line without their parent/carers permission, you may be breaching the privacy laws surrounding the child.

Think carefully because:-

1. Once posted and shared online any image or video can be copied and will stay online forever
2. Some children are at risk and MUST NOT have their image put online. Not all members of our community will know who they are
3. Some people do not want their images online for personal or religious reasons
4. Some children and staff may have a complex family background which means that sharing their image online can have unforeseen consequences.

WE HAVE  
ACHIEVED
